

Paris, 21<sup>st</sup> December 2006 – 8.30 am.

### **Freebox TV: the first ADSL platform to propose M6 and M6 Video**

As of 5<sup>th</sup> January 2007, M6 will be directly available with the Freebox TV multichannel package available to all subscribers eligible for Free's audiovisual service, no matter what version of the Freebox they have.

At the same time as the launch of M6, Freebox TV will offer M6 Video, the video-on-demand channel distributed by the M6 Group.

Thanks to this VOD television channel, subscribers will have the possibility of viewing over and over again the best programmes that have already been broadcast by M6, directly to their own TV. Part of this offer includes a certain number of successful television serials such as *Desperate Housewives 1 & 2*, *Commander in Chief*, *Un dos tres* as well as emblematic French programmes such as *Capital*, *Turbo* and even *E=M6* that will be available free of charge.

M6 Video enables Free to reinforce its offer of programmes-on-demand available on the Freebox. Thanks to this agreement, Free confirms its technological progress in being the only platform on ADSL to offer its subscribers such a wide and comprehensive video-on-demand offer.

*Offer subject to eligibility and the technical characteristics of the telephone line.*

*M6 will be available on channel 6.*

*M6 Video will be available on channel 6 by pressing the "info" button.*
