**TV Perso:  
With Freebox HD Free subscribers can create  
their own television channel**

With *TV Perso* Free subscribers equipped with Freebox HD are the first people in the world to be able to create their own television channel that can be viewed directly on a television. Users can become producers, presenting their own channel and sharing their content either live or via playback to all or part of the Free subscriber community.

The only Box with a video encoder, Freebox HD is the 1<sup>st</sup> new generation Box.

Users can broadcast video on *TV Perso* simply by plugging compatible equipment directly into the video input on their Freebox HD. You can easily share your family, local, community, cultural, sporting or educational events with your friends and family, to a community of users (sports club, local, cultural or educational association etc.) or with all eligible Free subscribers with any kind of Freebox.

*TV Perso* is available at no extra charge as part of the Freebox package. The service is available on channel 13 .

*Offer subject to Freebox TV eligibility and confirmation of the terms and conditions of sale valid as of 28 June 2007.*

*Transmission is accessible only to those equipped with a Freebox HD.*

*The subscriber is responsible for all content that they make available on the electronic communications network. Pirating damages artistic creation.*

*Service available as experimental beta version.*

For more information on *TV Perso*: see: <http://adsl.free.fr/tv>

*Free is a subsidiary of Iliad. The Iliad Group is a major operator on the French Internet access and Telecommunications market with Free (no. 1 alternative ADSL operator with 2,498,000 ADSL subscribers at 31/03/2007), Onetel and Iliad Télécom (fixed telephony operators) and IFW (Wimax).
