Iliad's shareholders elect Bertille Burel as an independent director

At the Annual General Meeting held on May 17, 2017, Iliad's shareholders elected Bertille Burel as an independent director for a four-year term.

Bertille Burel graduated from Sciences Po Paris in 1996, and in 1997 earned a post graduate degree in international business studies from Paris Dauphine University.

She began her career in 1998 at WizArt Software (specialized in client/server applications), where she was responsible for operations in the Benelux region and subsequently Japan and the United States. Then in 2000 she joined TPS (a French satellite television company) as Head of Business Development.

In 2004 Bertille founded Wonderbox with her husband, James Blouzard, on their return to France from a six-month round-the-world tour. The idea to create the company was inspired by the experiences they had during their travels and a desire to share with others their love of adventure and escapism.

Wonderbox now employs over 300 people and has been the leader in its market since 2013. It is still growing strongly, led by an overriding aim of always being at the cutting edge of innovation in the leisure industry.

Aged 47, Bertille is not only a keen traveler but also has a black belt in karate (2nd Dan).

Free provides straightforward and innovative offerings at the best prices. For example the Freebox Revolution, the 6th generation of Freebox units, includes an NAS and a Blu-Ray™ drive, and the Freebox mini 4K was the first Android TV™ and 4K box on the French market. Free was the first operator to include calls from landlines to mobile phones in its offerings and also calls to French overseas departments (DOM). The Free Mobile Plan includes roaming communications all year round from more than 35 countries (unlimited calls, texts and MMS as well as 5GB/month of 3G mobile Internet from all these destinations). Free also includes unlimited 4G in its €15.99 plan for Freebox subscribers. As at December 31, 2016, Free had over 19 million subscribers (6.4 million Broadband and Ultra-Fast Broadband subscribers and 12.7 million mobile subscribers).
