About Iliad

Iliad is the parent company of Free, the inventor of the Freebox, the first multiservice box on ADSL. Free is behind numerous innovations in the Broadband and Ultra-Fast Broadband access segment (VoIP, IPTV, flat-rate calling plans to multiple destinations, etc.) and provides straightforward and innovative offerings at the best prices. The Freebox Revolution, the 6th generation of Freebox units, notably includes an NAS and a Blu-Ray™ drive. Free also offers the Freebox mini 4K, the first Android TV™ and 4K box on the French market. Free was the first operator to include calls from landlines to mobile phones in its offerings and also calls to French overseas departments (DOM). Since January 2012, Free has brought mobile phone usage within everyone's reach with straightforward, no-commitment offerings at very attractive prices. The Free Mobile Plan includes roaming communications all year round from more than 35 countries (unlimited calls, texts and MMS as well as 25GB/month of 3G mobile Internet from these destinations). Free also includes unlimited 4G in its €15.99 plan for Freebox subscribers. As at December 31, 2017, Free had over 20 million subscribers (6.5 million Broadband and Ultra-Fast Broadband subscribers and 13.7 million mobile subscribers).
