Free is **boosting the 5G/4G data allowance usable in Metropolitan France** for subscribers on the 5G Free Mobile Plan from 250 GB/month to **300 GB/month**, once again **without any increase in price (still €19.99/month)**.

With this size of data allowance, Free is the only telco in France to offer such a **generous no-contract plan at that price**.

Since 2012, **Free has regularly increased** the data allowance of the Free Mobile Plan **without changing its price, multiplying the allowance by 100 between then and now:**

The latest increase to 300 GB is automatically **available as of today to all Free Mobile subscribers** – both new and existing – at no extra cost.

For recollection, in January 2022, Free pledged not to touch the price of its two mobile plans (€19.99/month and €2/month)¹ until 2027.

On top of this, 5G Free Mobile Plan subscribers who also have a Freebox plan get unlimited 4G/5G data in Metropolitan France and a special deal on the 5G Free Mobile Plan (€10 reduction for Freebox Pop subscribers and €4 reduction for other Freebox subscribers).

In addition, 5G Free Mobile Plan subscribers have a roaming data allowance of 35 GB/month that can be used in 100 destinations.
