PRESS RELEASE

Paris, July 9, 2024

OQEE by Free:
Free – France's first operator to offer its TV app on Philips Smart TVs powered by Titan OS

The OQEE by Free TV app is now available on Philips Smart TVs powered by Titan OS. So Freebox subscribers and subscribers on the 5G Free Mobile Plan can now access, at no extra cost, OQEE's multitude of services directly on their Philips Smart TVs.

OQEE – the app that makes you want to watch TV

OQEE is the TV app created by Free for its 5G Free Mobile Plan subscribers and Freebox subscribers. With OQEE, they have over 230 live TV channels included, as well as a whole host of catch-up services, accessible on their TV, mobile phone, tablet, or online. Thanks to the app's ergonomic interface design, users can find their favorite channels super easily. And accessing their TV content has never been

simpler, because with OQEE, subscribers have a wide range of advanced features at their fingertips, including live pause and rewind, and start-over which lets them go back to the beginning of a program.

Freebox subscribers can also use the app to record programs, with up to 320 hours of recording included depending on their Freebox plan.

OQEE Ciné – movies and series included

Freebox subscribers with the TV service and subscribers on the 5G Free Mobile Plan can now access OQEE Ciné – **the no-cost unlimited streaming service**[1] – directly on their Philips Smart TVs powered by Titan OS. With OQEE Ciné, subscribers can get over 500 movies and series on demand, free of charge, including comedies, French cinema, action movies, timeless classics and cult series.

Everyone can watch what they want!

With OQEE, the whole family can be on different Philips Smart TVs powered by Titan OS and watch whatever programs they want at the same time, live or on catch-up. Up to five screens can be used simultaneously.

One-click access to the app

The OQEE TV app is pre-installed on the home page of Philips Smart TVs powered by Titan OS, from the 2022, 2023, and 2024 ranges onwards and soon also on the 2020 and 2021 ranges. This means that Free subscribers have super-easy one-click access to all of their content – all they need to do is launch the OQEE app and click on "Connect".

[1]Advertising-based Video on Demand (AVOD).
OQEE by Free: available for Freebox subscribers with the TV service (OQEE by Free/Freebox TV) and 5G Free Mobile Plan subscribers. OQEE by Free app available on the Free 4K TV Player or on compatible devices (by downloading the app from the App Store, Google Play or the Samsung Galaxy Store and creating an account), and online at https ://oqee.tv//. Access to the OQEE by Free TV service and advanced features available depending on the subscriber's plan and devices. Record: 320 hours of recording included for Freebox Ultra and Freebox Ultra Essential subscribers, 100 hours for Freebox Pop subscribers, and 40 hours for Freebox Revolution Light subscribers (additional hours billed at €0.02/hour/month) with initial activation per tranche. Access to recorded programs withdrawn if the subscriber cancels their Freebox subscription.
OQEE Ciné: available on the Free 4K TV Player and the Revolution TV Player (Freebox Revolution Light), online at oqee.tv or on the OQEE by Free app, subject to the use of compatible devices. Advertising-Based Video on Demand (AVOD) streaming service (a no-cost VOD service financed by advertising). Unlimited viewing subject to program availability.
Limited to five connections. Connection costs included in the subscriber's data allowance and/or billed depending on the subscriber's mobile plan. See https://assistance.oqee.tv/hc for full terms and conditions and compatible devices.

About Free

Free – the inventor of the world's first triple-play box – is a Fixed and Mobile Ultra-Fast Broadband operator in France, standing out for its innovative, straightforward and attractive offerings. At end-March 2024, it had 22.7 million retail subscribers (15.2 million Mobile subscribers and 7.5 million Fixed-line subscribers). Free is a subsidiary of the iliad Group, which was created in France in the early 1990s and now also operates in Italy under the iliad brand and in Poland under the Play brand. In March 2021, the iliad Group launched its BtoB business in France under the Free Pro brand.

About Titan OS S.L.

Titan OS S.L. is a technology company headquartered in Barcelona, with branches in Amsterdam and Taipei. The company specializes in developing software and solutions to unleash the full potential of Connected TV. We are re-thinking TV to change the way people discover content and how brands connect with audiences, making content discovery easier. Our aim is to foster collaborations across the entire TV ecosystem to grow business together with TV manufacturers, retailers, media companies, content creators, publishers, and brands.

Our independent operating system powers smart TV devices from world-class manufacturers across Europe and Latin America, offering millions of viewers a personalized experience from the moment they switch on their TV. With tailored recommendations, we seamlessly integrate all the content on the homepage, from streaming subscription services, free and paid movies, series and TV shows to linear channels.
