**Free is the first operator to include
calls to mobile phones in French overseas departments
(excluding Mayotte)
in its Freebox Revolution plan & its mobile phone plans**

True to its strategy of offering more service at constant prices, Free has **stepped up its Freebox Revolution plan and its mobile phone plans to include** calls from metropolitan France to the French overseas departments (excluding Mayotte).

Free subscribers (Freebox Revolution plan or mobile phone plans) whose plan already includes calls to landlines in Guadeloupe, French Guiana, Martinique and La Reunion can now enjoy unlimited calling at no extra cost (or within their 2 hours plan for subscribers to the 2-euro per month plan) to mobile phones in these destinations.

For subscribers to the unbundled or optical fiber Freebox V5 offering, who opt for or who already avail of the "Call to mobile phones" option, the new offering is integrated in the option.

Free is the first operator to include these calls in its landline and mobile phone plans, thus helping to bridge the digital divide between metropolitan France and its overseas departments (excluding Mayotte).
