Algeria now included in Free's 25GB/month roaming allowance!

Free has now included **Algeria** in its destinations covered by the **25GB/month** 3G data roaming allowance that forms part of its Free Mobile Plan costing just €15.99 a month (price for Freebox subscribers, otherwise €19.99/month).

This is the first time that an operator has included data roaming from Algeria in a mass consumer mobile plan. For example, 25GB of data roaming in Algeria on an Orange mobile plan* costs more than €340,000 (excluding options and passes).

Thanks to Free, people travelling to Algeria can stay connected and no longer have to switch off data roaming for fear of having an extortionate bill to pay, even if they go there every month!

* Orange standard rate, incl. VAT, as at January 22, 2018: €13.31/MB from Algeria for mobile plans, excluding special offers.

Europe: Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, Germany, Gibraltar, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Saint-Pierre-et-Miquelon (no Internet available on Saint-Pierre-et-Miquelon), the United Kingdom

French overseas departments (DOM): French Guiana, Guadeloupe, Martinique, Mayotte and Reunion Island.

Beyond 25GB/month: €3/MB from Algeria and applicable rates from all other destinations (see list on mobile.free.fr)

Offer subject to conditions, valid in Metropolitan France subject to network coverage and a compatible mobile phone. Reserved for subscribers residing in Metropolitan France or who can evidence a stable link with Metropolitan France, subject to fair usage policy. SIM: €10. Freebox subscribers price applicable for up to 4 Free Mobile Plan subscriptions. Communications from abroad limited to the areas covered by the network of roaming partner operators. See mobile.free.fr for full terms and conditions. Hands-free kit  recommended for mobile phones.

About Free

Free – an Iliad Group subsidiary – is the inventor of the Freebox, the first multiservice box on ADSL. Free is behind numerous innovations in the Broadband and Ultra-Fast Broadband access segment (VoIP, IPTV, flat-rate calling plans to multiple destinations, etc.). For example, the Freebox Revolution, the 6th generation of Freebox units, includes an NAS and a Blu-Ray™ drive, and the Freebox mini 4K was the first Android TV™ and 4K box on the French market. Free was the first operator to include calls from landlines to mobile phones in its offerings and also calls to French overseas departments (DOM). Since January 2012, Free has brought mobile phone usage within everyone's reach with straightforward, no-commitment offerings at very attractive prices. The Free Mobile Plan includes all year round roaming communications from more than 35 countries: unlimited calls, texts and MMS (excluding Mexico, Switzerland, Turkey and Algeria) and 25GB/month of 3G data roaming from all of these destinations. Free also includes unlimited 4G in Metropolitan France in its €15.99/month Mobile Plan for Freebox subscribers. As at September 30, 2017, Free had nearly 20 million subscribers (6.5 million Broadband and Ultra-Fast Broadband subscribers and 13.4 million mobile subscribers).
